### Press Release

Your publication of an unsigned Press Release dated December 2<sup>nd</sup> 2021 by a Kendra Stephen purporting to be the chair of a Transitory Executive of the APP refers.

It is unfortunate that in your wisdom you choose to publish such a release before doing your due diligence and fact check being cognizant of the public activities of the APP under my leadership and that of Mr. Julius Corbett as President.

We wish to re-iterate that the only APP as constituted and as duly registered and recognized by the Electoral Office is that I am Political Leader of.

The actions and utterances of Kendra Stephen and her enablers are malicious and clearly intended to cause harm and damage to the name and image of the APP for which the necessary legal action has been instituted.

It is disheartening to say the least, that persons who claimed to share a common vision to eradicate bad governance and promote democracy, good and accountable governance for the economic and social upliftment of our people are now seeking to destroy the only positive path to achieving this goal for their own selfish ends.

Finally, I attach documentary evidence from the Electoral Office of our legitimacy and request that you retract your publication of the said Press Release at your earliest convenience.

Yours in Development

A handwritten signature in blue ink, appearing to read 'Tahira Blanchard', with a stylized flourish at the end.

Tahira Blanchard

Political Leader
