### FOR IMMEDIATE RELEASE

#### Youth Development Division Launches National Youth Groups Registration Initiative

Roseau, Dominica — The Youth Development Division, within the Ministry of Culture, Youth, Sports and Community Development, has officially launched a Youth Groups Registration Initiative aimed at strengthening engagement with organized youth groups and youth-led organizations across the island.

This initiative seeks to update and maintain an accurate national database of youth groups, improve coordination and communication and enhance the delivery of youth-focused programmes and opportunities at the community and national levels.

Through this registration process, youth groups operating throughout Dominica are invited to submit their information via an online registration form. All applications will be reviewed and verified by District Youth Officers to confirm the group's existence and operational status within their respective communities.

Groups that successfully complete the verification process will be issued an Official Certificate of Recognition from the Youth Development Division, signifying their formal registration and recognition within the national youth development framework.

According to the Youth Development Division, the initiative is part of a broader effort to strengthen collaboration with youth organizations, support structured youth engagement and ensure that programmes, training opportunities and resources are effectively aligned with the needs of young people.

Youth groups are encouraged to register by scanning the QR code featured on the official flyer or by accessing the registration form via the following link:

<https://forms.gle/LTkx5f7CdDSefcsd7>

For further information or assistance, interested groups may contact the Youth Development Division at **767-266-3766**.
