

The Electoral Office of the Commonwealth of Dominica is currently conducting a nationwide voter confirmation exercise as part of efforts to modernize and update the national Register of Electors. The process allows already registered voters to visit their designated confirmation centers to verify and update their information within the electoral system.

This exercise forms part of the implementation of the *Registration of Electors Act, 2025*, which introduced new requirements aimed at strengthening the accuracy, transparency, and integrity of the voters list.

Today, the Electoral Office is providing an update on the ongoing voter confirmation process.
