

PRESS RELEASE

FOR IMMEDIATE RELEASE:

ELECTORAL OFFICE OF DOMINICA ANNOUNCES COMMENCEMENT OF PRINTING VOTER IDENTIFICATION CARDS

Roseau, Dominica – The Electoral Office of Dominica is pleased to announce the commencement of the printing of Voter Identification Cards, marking another significant milestone in the modernization of the country's electoral system.

To facilitate an orderly and efficient distribution process, Voter Identification Cards will be printed by constituency. This approach reflects the organization of the confirmed electors' lists, which are prepared and maintained on a constituency basis.

The introduction of the Voter Identification Card is a key requirement under the House of Assembly Elections Act, 2025 and represents the final stage of the ongoing Voter Confirmation process. This initiative forms part of the Electoral Office's broader commitment to strengthening, modernizing, and enhancing the integrity and efficiency of Dominica's electoral system.

As printing continues, the Electoral Office will announce the availability of cards for each constituency. Distribution will take place through designated Voter Confirmation Centers across the island, and members of the public are encouraged to monitor official announcements for collection dates applicable to their constituency.

The Electoral Office recognizes the anticipation surrounding the issuance of the new Voter Identification Cards and sincerely appreciates the patience and cooperation of the public throughout the Confirmation process. The Office remains committed to ensuring that every confirmed elector and every newly registered elector receives a Voter Identification Card in accordance with the provisions of the law.

The Electoral Office will continue to implement every aspect of the Voter Confirmation program with diligence, transparency, and strict adherence to the governing legislation, in the best interest of the democratic process and the people of the Commonwealth of Dominica.
